

Amazing Mazes

Your Task

Study the work of Richard Long

Work as a team to make a maze using the instruction sheet and the materials you have in your grounds

Why not create team roles?

For example:
Maze Organiser
Material Transporters
Maze Creators

You Will Need

- Materials from your garden (e.g. grass, leaves, sticks, soil)

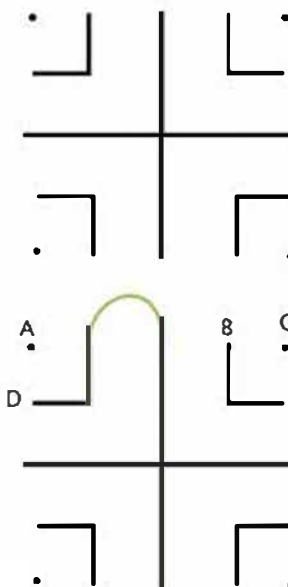

Did you know?

Mazes were used by Christians to make amends for sins. Travelling a maze represented a difficult journey. A much cheaper alternative to a pilgrimage to save the soul.

During this task you will

- Work as a team to create art inspired by the artist Richard Long
- Select from wide range of materials according to their characteristics
- Explore the effect of colour shape and form

Instructions

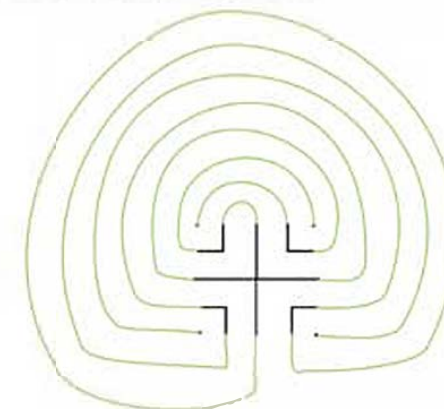

1. Make the pattern (top left diagram) on the ground, with enough space to walk between each shape.

2. Join the top of the central cross to one of the L shapes (see bottom left diagram)

3. Continue by joining the next free end (A) to the free end on the other side (B)

4. Now join the next free end on the right (C) to the next free end on the left (D)

5. Continue joining the next free ends until all the ends are used up. The result will be the maze shown below.

This looks complicated but it is very easy. Give it a go!
